Andrew's Buzar, Washington Letter. One feature in the last reception was novel, and that was the presence of Mrs. Tyler assisting Mrs. Hayes, the first time such courtesy has been tendered her since she presided at the Executive Mansion. In speaking to me she said "I felt like Mrs. Madison" "Then you must have felt very good," I replied. "for I fancy few people were to be more envied in that regard than Dolly Madison" "Oh, I do not mean that; but I was continually reminded of her as I stood there, because while I was at the White House I never forgot or neglect

Andrew's Buzar, Washington Letter.

At Which End?

From Harper's Brawer.

A few evenings since a father and daughter at Wellesley, Mass, were having a pleasant chat, mutually recalling neidents of the latter's childhood. "I shall never forget," said the youn

lady, "how you took me out of chareh one Sabhath, when I was about 3 years old, and punished me for playing in meeting. I can remember the tingling of that peach tree awitch to this day." "Very strange, very strange,"

the father; "I don't recullect the circumstance at all. "Ah, well, papa, you were at the other end of the switch!"

AN ASTONISHING FACT.

A large proportion of the American A large proportion of the American people are to-day suffering from the effects of Dyspepsia or disordered liver. The result of these diseases upon the masses of intelligent and valuable people is most alarming, making life actually a burden instead of a pleasant existence of enjoyment and usefulness as it reight to be. There is no good reason for this, if you will only throw aside prejudice and skepticism, take the advice of Drugglats and your friends, and try one bottle of Green's August Flower, your speedy relief is certain. Millions of bottles of this medicine have been given away to try its virtues, with satisfactory results in every case. You can hay a sample bottle for 10 cents to try. Three doses will relieve the worst case. Positively sold by all Drugglats on the Western Continent.

JOSE BULLINGS ON BEER.

Why He Believes it Will not Infoxicate
His Famous Beer Test Art.

I have finally curs to the conclusion that lager beer as a beverage is not in

to go home entirely solar in the morn ing I have seen this same man drink eighteen glasses, and if he was drunk it was in German and nobody could under

It is proper enull to state that this man kept a lager beer saloon, could have no object in stating what was not strictly thus

I believe him to the full extent of my ability I never drank but three glasses of lager in my hie, and that made my head ontwest as the it was him, on , the end of a string, but I was told that it was owing to my lide heme out of place, and I guess it was so, for I mever biled over was than I did when I got hom that rate My wife that I was goin to die, and I was afraid that I shouldn t. for it seemed as the everything I had ever eaten in my life life was coming to the surface, and I believe that if my wife hadn't pulled off my boots just as she did, they would have cam thunderen

up 100 O, low sick I was! Fourteen years ago, and I can taste it now Theser had so much expense on

shor a time

If any man shoul tell me that lager beer was not intoxic ting. I shad behave him, but if he should tell me that I wasn't deank that mite but that my stummack was out of order I shud ask him to state over a few words just how a man felt and acted when he was set

If I warn to drawk that inte, I had some ov the most natural similaries that a man eyer had and kept soher

In the first place it was about eighty rods from where I drank the lager heer to me house, and I was jest over two hours on the road, and a hole busted through each one of my puntaleon neez, and didn't have any lint, and tried to open the door by the bell pull and his cuped awfully and saw overything in the room trying to get round on the back side of me and, setting down on a chair round and I set down a little too soon and missed the chan about two lve melies, and couldn't get up soon enough to take the next one that come along and that and awl, my wife sed I was drunk as a beest, and, iz I said before,

I began to spin up things freely I don't want to say anything against a harmless temperance beverage but if ever I drink eny more it will be with my bands tied behind and int mouth

I don't think lager here in tutoxica ting, but if I remember 1str, I think it tasted to me like a gloss of sorp sads that a pickle had been put tow souk in

"What Father Takes."

There is food for thought in the story that is told of a young lid who, for the nut, always on hand and for sale at the first time, accompanied his father to a lowest figures, at I F Krosey's Water Land of public dinner. EDITORS REPUBLICAN -Herewith we present you a few facts and figures in regard to the cost of gas in various cities in this State, the table of charges having heen compiled from letters received in the past two weeks from the companies named below. The number of consum ers in any city must beer a relative pro portion to the ability of the company to make low prices, and it is no more than fair to take into consideration that cities like Springfield, Quincy and Pearls, have about three times as many consumers as we have, while many other points draw their supply of coal from the mines at their doors

Mayor Priest, in his inaugural message, gave the cost of lighting street lamps with gas, including repairs, at \$2,635 65, and gasoline lamps, at \$1,344 33, and in anoth er part of his message stated that "It costs us over three times as much to light our street lamps with gas as it does with oil." We merely refer to this for the purpose of correcting the error that Mayor Prient inadvertently made, and quote from the report of the city council committee on gas and gaalights, under date of Fab 18, 1878, as follows: "We have unite with Beaumanoir Commanders on now 112 gas ismps, the expense for gas and lighting and repairing them has been extended to the public to be present \$2,515 20, an average of \$22 46 per lamp. We have 9i gasoline lamps, the total cost of gasoline, filling, lighting and repair ing has been \$1,443 63, an average of \$15 M per lamp "

The cost of gas alone, as per said com mlitee's report, was \$1,710 15, or \$15.27 per post. A comparison of these figure with the table below will convince any one that Decatur is being lighted cheaper than any of the cities named therein.
